- Recycled PET polyester fibre.
- 100% nitrile rubber backing, with 34% post-industrial recycled content.
- Backing thickness: 1.4mm or 2.5mm.
- Backing type: Gripper or Smooth.

WHY **PROFESSIONAL MAT WASHING** MATTERS

Your mat is working harder than you think.

Specialised washing technology removes trapped dirt, dust, and grime more effectively than vacuuming alone.

WASH & TREATMENT

Washed at >60°C with chemicals in an industrial washer/extractor

1. Mats are loaded into the washer/extractor.
2. Appropriate wash programme is activated.
3. Clean mats are unloaded onto the conveyer ready for the drying process.

DRYING & FINISHING

Mats are dried in industrial dryers, where residual moisture and fine dust are removed

1. Mats are loaded from the conveyer to the dryer.
2. Mats are tumble dried at high temperature for 15 minutes.
3. Dried mats are unloaded ready for inspection and rolling.

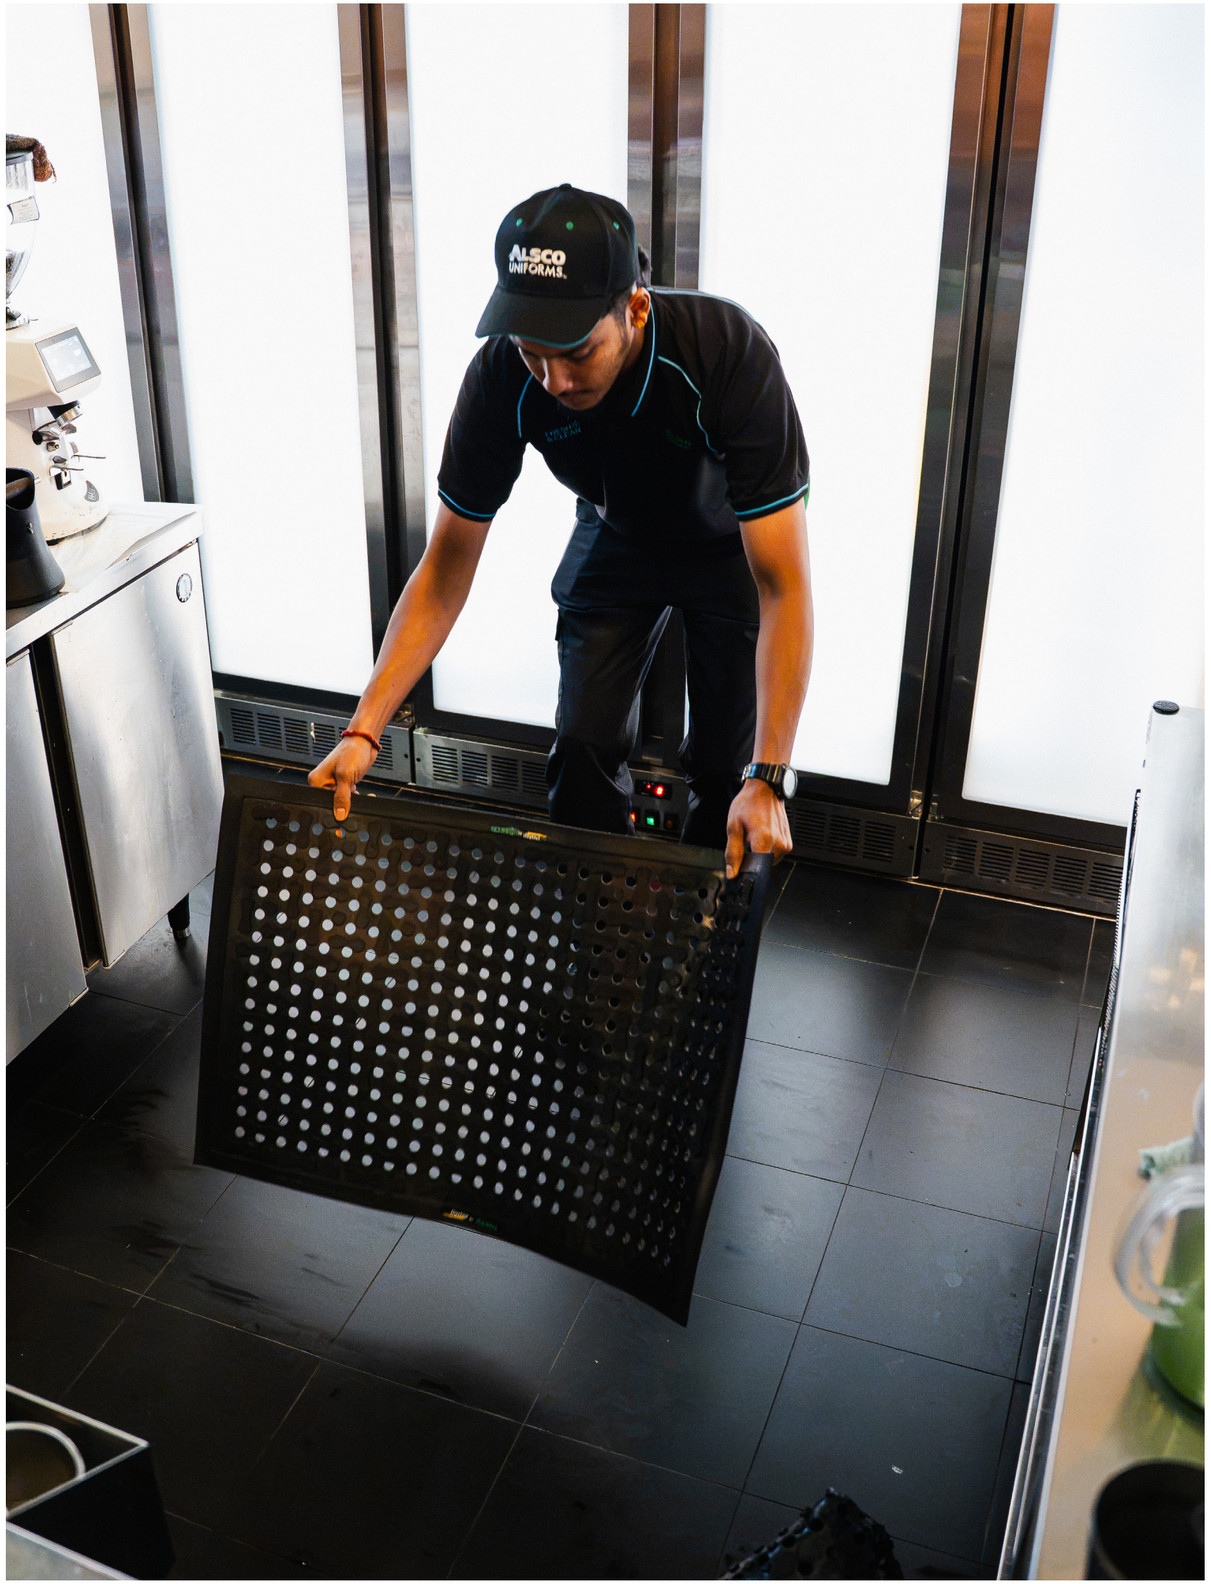

FINAL INSPECTION

Final checks ensure every mat meets our quality standards before returning to service

1. Damaged mats sent for repair.
2. Non-compliant mats removed from service.
3. Stained mats returned for treatment.
4. Approved mats prepared for service.

Professionally Cleaned for Maximum Performance

FLOOR CARE
PLACEMENT ZONES

Entranceways

A combination of outdoor and indoor entrance mats provides an effective barrier against dirt and moisture entering your facility. This helps protect floors, reduce slip hazards, and maintain a cleaner, safer environment while creating a positive first impression and reducing ongoing cleaning and maintenance requirements.

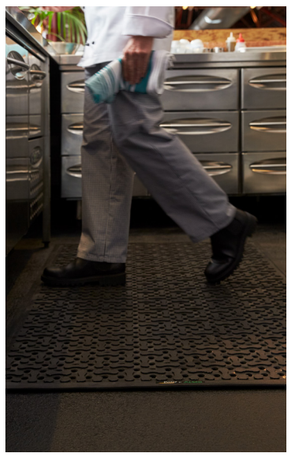

- Corporate Logo Mat
- Jet Print Mat
- Waterhog Mat
- Dust Control Mat

Hazardous Areas

Areas exposed to moisture, grease, heavy foot traffic, or prolonged standing require specialised matting solutions. Our range of wet area and safety mats helps improve traction, enhance underfoot comfort, and support safer, cleaner, and more productive workplaces across demanding operational environments.

- Safety Mat
- Wet Area Mat

Heavy Traffic

High-traffic areas require durable matting solutions that withstand constant use while protecting your flooring. Our heavy-duty mats help capture dirt and moisture, reduce wear and tear, improve safety underfoot, and maintain a cleaner, more professional environment throughout your facility every day.

- Safety Mat
- Wet Area Mat
- Waterhog Mat
- Dust Control Mat

Workstations

Standing for extended periods can place added strain on employees and affect workplace productivity. Our workstation matting solutions provide comfort, support, and traction underfoot, helping reduce fatigue, improve wellbeing, and create safer, more comfortable environments where standing tasks are regularly performed.
